DAS LIFE MEMBER MIRO MARCELLI

SUNDAY, NOVEMBER 27 - 4:30/6:00PM

I LABORATORI ERNESI

Ernesi has been established in 1978 by Ernesto Cappelli and Silvana Virgili as a pioneer skin and hair care laboratory built with top notch equipment provided by the highly respected Carlo Erba Pharmaceuticals.

From the origins Ernesi separates itself from the competition for offering products made of the highest quality standards and performance while at the same time already focusing on the potency of natural ingredients, benefiting the overall self-care.

The business model is about visiting selected pharmacies in Central Italy where Silvana and her team of talented professional estheticians organize regular shows [“la giornata del viso”] applying the products to Clients of the pharmacy.

Learn from DAS Life Member Miro Marcelli, about the new course is bringing the original ERNESI vision to a new frontier for our beauty care and well-aging, leveraging the potency of the spontaneous ingredients of its unique territory: from the Adriatic Sea to the Parco Nazionale dei Monti Sibillini.

With the collaboration of the Italian American Club of Livonia Charitable Foundation

WHERE: DAS - 4050 West Maple Rd - Ste 250 - Bloomfield Hills, MI 48301
